

GERMAN ADVANCE REPORTED STOPPED BY ALLIES' ARMY IN BRUSSELS VICINITY

RUSSIAN EMPEROR GOES TO THE FRONT TO ORDER GENERAL ADVANCE.

CROWN PRINCE HURT?

English Expedition Has Landed on the Continent to Reinforce French and Belgians in Opposing the Germans and Austrians.

There is good reason to believe that a serious engagement in which the German advance is opposed by troops of Belgium and France has been going on since Monday south of Brussels. No definite news of the progress of this encounter, however, has been received.

Other reports from Brussels show that trenches are being dug up in the environs of that city.

Reports from St. Petersburg by way of London set forth that the Russian armies began their general attack last Sunday.

The Serbian premier is authority for the statement that Austrian forces have suffered a serious defeat on the Serbian line.

The Austrian premier telegraphed London that 15,000 Austrians have been "annihilated" near Sabac. They fled in disorder.

The Servians captured 14 Austrian guns.

The German cruiser Leipzig which came into San Francisco yesterday for coal, left Golden Gate early today with a supply that will carry her to the nearest German port, Apia.

The Japanese cruiser Idzumo is believed to be coming up the Pacific coast to observe the movement of the Leipzig.

The announcement from London and Paris that no war correspondence will be allowed in the field, coupled with Great Britain's request to Belgium to expel the correspondents now in the zone of operation, makes it probable that the story of the first great battle will be told only through official reports.

It is known that the German general staff regulations absolutely prohibit correspondents with the army and the Russian military

ARTILLERY OF SERVIANS IS MAKING THE TIGHT PLACES ABOUT NISCH HARD TRAVELLING FOR AUSTRIAN ARMY

A Serbian Artillery Camp and View of Nischava Valley.

The artillery camp of the Serbian army, although carrying much antiquated material, is manned by courageous and extremely patriotic men. They are fortifying the hills about the temporary capital at Nisch in such a manner that the Austrian army will find itself in a lot of trouble when it comes along. The desolate gorges of the Nischava Valley present some of the finest scenery in the world. In places huge boulders almost meet overhead, above a foaming, roaring torrent along which the road passes at unpleasantly close quarters. It will be no easy matter for an invading army to get around these towering crags.

Report Losses.
"In all the actions of the past few days the Germans have sustained serious losses, our artillery having had a frightful effect on the enemy."
"We have conquered the majority of the valleys of the Vosges upon the slope of Alsace from where we will soon attain the plain."
"To the south of Saarburg in Lorraine, forty miles east of Nancy, the enemy has organized in front of us a strongly fortified position held by heavy artillery. The Germans retreated precipitantly and our cavalry pursued them."
"In general we have obtained in the preceding days successes to the greatest honor of the officers and men engaged in the battles."

MANY AMERICANS IN FOREIGN COUNTRIES

Relief Committee is Convinced That Original Estimate is But Half Correct.

London, Aug. 18.—The relief committee and the American embassy here are now persuaded that the original estimate of thirty thousand Americans on the continent was only half the real number.

About eleven thousand Americans are said to be in Switzerland alone, while reports from Austria and Italy now show increased numbers in those countries with little chance of outlet by rail and few Mediterranean sailings.

One thousand pieces of checked baggage belonging to Americans arrived in London today from France, Belgium and Holland. The baggage has been stacked at the depot to await claimants.

CONDITION OF POPE REPORTED SERIOUS

Dispatch From Milan, Italy, States His Holiness Suffers With High Fever.

London, Aug. 18.—A dispatch to the Daily Chronicle from Milan, Italy, says that the Pope is in a state of high fever and that his condition occasions serious alarm.

Rome 2:30 p. m., via Paris, Aug. 18.—The condition of the pope tonight is about the same. The chill affection continues. There is no sign of improvement, but it will be difficult for the patient to free himself of this condition, owing to his mental depression consequent of the war.

FIFTEEN THOUSAND AUSTRIANS KILLED IN SERBIA--REPORT

Report of Serbian Victory at Sabac and Retreat of Austrians is Received at London.

Nish, Aug. 17, via London, Aug. 18.—The Austrians have been completely defeated near Sabac, twenty-seven miles west of Belgrade, according to government sources. They fled toward Leshitz and Loshitz, pursued by Servians, who cut up three regiments and captured fourteen guns.

Reports 15,000 Killed.

London, Aug. 18.—The Serbian legation has received the following telegram from the Serbian premier, N. Pachitch:

"The Austrians were completely routed in the mountains near Sabac and 15,000 annihilated. Fourteen guns were captured. The Austrians are fleeing in great disorder to recross the Rivers Save and Drina, hotly pursued by our troops."

Thankful for Aid.

Paris, Aug. 18.—The Serbian legation has formally expressed to Foreign Minister Gaston Dumerque, the gratitude of the Serbian government for the assistance rendered from France in the present circumstances.

Washington, Aug. 18.—Japan's ultimatum to Germany to withdraw from Kiaochow has been delivered to the foreign office in Berlin through Copenhagen.

Tokyo, Aug. 18.—Count Okuma, the Japanese premier today in addressing a gathering of business men from various parts of Japan, reiterated the

Japan's ultimatum to Germany demands that the latter power abandon the entire leased territory of Kiaochow, "with a view to the eventual restoration of the same to China."

statement he had made to the members of parliament, merchants and industrial men of Tokyo, early in the morning.

"Japan's warlike operations," he added, "will not extend beyond the limit necessary for the attainment of the object of the defense of her own legitimate interests. The imperial government will take no such action as could give to a third party any cause for anxiety or uneasiness regarding the safety of their territories or possessions."

The premier also said that it was the intention of Japan to eliminate from China the route of German influence.

Washington, Aug. 18.—Addressing the American people, President Wilson today issued a statement in connection with the Japanese ultimatum to Germany to cede the leased territory of Kiaochow to China.

An appeal that the government of the United States plead with Japan to refrain from carrying the purpose of war in the far east was received by President Wilson from the National German-American Alliance. The president was thanked for his offer of mediation to the warring nations of Europe.

Ask for Interference.

"We now appeal to the president and to congress," said the petition, "to plead that the government of Japan, through her ambassador at Washington, in the name of humanity, civilization and universal peace, refrain from carrying the war into the far east, by demanding that Germany abandon her political and commercial interests in China."

"Instead of throwing the frebrand of war into the far east, Japan should be fair and submit the grievance she has against Germany to a tribunal of other nations to The Hague tribunal where, no doubt, other questions of the present conflict will be submitted."

Localize War.

Japan's determination to localize her operations against Germany by not extending them to the whole range of Germany's extensive possessions throughout the Pacific give distinct relief to officials here as narrowing the range of conflict in the far east.

No Further Plans.

It now is known from authoritative Japanese quarters here that Japan's purposes are directed against Kiaochow and have no bearing on the extension of the Pacific. The ultimatum on Kiaochow was made on the distinct grounds it was for the purpose of restoring China's territorial integrity.

Kiaochow is the only German possession on the "continent of Asia."

Austrian Torpedo Boat BLOWN UP BY MINE

Two Disabled German Cruisers Brought to Hong Kong Indian-ate Recent Naval Engagement.

Shanghai, Aug. 18.—Two German cruisers have been disabled and brought into Hong Kong. Confirmation of this fact was received here today. The deck works and the barbettes of the two cruisers were demolished and their masts and funnels had been shot away. Their sides were stained with blood which had run through the scuppers.

Owing to the rigid censorship established by the British authorities at Hong Kong it is impossible to obtain the names of the cruisers. Many German merchant vessels are lying in the harbor at Hong Kong.

Later Report.

Shanghai, Aug. 18.—Two warships badly damaged and carrying many wounded were reported to have entered Hong Kong harbor on August 13. Their identity was not made public, but at the time it was believed they were the British cruisers Minotaur and Hampshire or the French cruisers Duplex and Montcalm, which were reported to have had an engagement with the German cruisers Scarborough and Gauenau.

Washington, Aug. 18.—A bill authorizing the president to forbid by proclamation the exportation of food stuffs, clothing or other contrabands or conditional contrabands of war if such exportation threatens to increase the price of such commodities to consumers of this country, was introduced in the house today by Representative of Pennsylvania.

The bureau of corporations would ascertain the facts necessary to the administration of the proposed law.

Persons violating the proclamation would be punishable by a fine of \$1,000 and a year's imprisonment.

Seattle, Wash., August 18.—A few exclusively tropical diseases, there is hardly a disease known to medical science from which inhabitants of Alaska's chain of Aleutian Islands are not suffering, according to officers of the Revenue cutter Unalaga, just returned here from a 3,500-mile cruise in the north.

The worst of the diseases is said to be on the island of Attu, the westernmost of the chain. The population there, it is said, is dying so rapidly that it will be extinct within three years.

ELIHU ROOT MAKES SEVERE ATTACK ON DEMOCRATIC REGIME

New York Senator Presiding at State Republican Convention, Charges Administration is Foe of Business.

Saratoga, N. Y., Aug. 18.—Addressing the New York republican state convention which met here today under the novel condition of being without power to nominate candidates for office since the new primary law calls for their selection by the voters of the state at the primary election on September 28th, Senator Elihu Root, the temporary chairman of the convention, pointed out the most essential factors which might lead to republican success this fall.

It is, as he noted, the first time in eighteen years that the republican party of its state government and its national government are the party of opposition both in the state and the nation. The party was about to appeal, he said, to the voters of the state, not only for a judgment upon the conduct of the government by the democratic party at Albany, but also in Washington.

He charged that since the democratic party took possession of the national government last year, and a half ago, with a program by which they proposed to set free every American from the incubus of too great success by others, to reduce the cost of living, to increase the production and prosperity to American industry, and suggested that "perhaps the time has now come when the American people are ready again to try the protective system upon its merits and to call for legislation inspired by a spirit of friendliness toward American industry."

He likewise attacked the democratic program in relation to the financial system and the control of trusts and corporations. He remarked that eight months had passed since the banking and currency act became law, and that the day in putting this into operation, together with the proposed legislation against trusts and corporations had had an ill effect on the country.

"The spirit of the democratic party," he said, "in dealing with these business problems, increased the enterprise of the country with a sense that the government is hostile."

"Enterprise halts," he continued, "because it distrusts and fears the democratic party. In the meantime, while private enterprise is repressed, government control grows. It has been discovered that by granting the income tax and fixing a high exemption, practically the entire tax may be drawn from the great industrial communities of New England, the middle states and the central west, while the disposition of the money raised by taxation may be determined by representatives of other parts of the country who have no one of the tax, so that one set of Americans is to pay the money and another set is to spend it." He pointed to the \$30,000,000 voted to build roads in Alaska and the \$25,000,000 voted by the house for good roads, as "the prelude of schemes running into the billions" for spending the money taken from rich states by the poor.

His estimate of the progressive movement he reflected as follows: "In this controversy with the democratic party, the republican party stands alone. The three of a third party, which alarmed so many republicans two years ago and still vexed us one year ago has practically disappeared. It is now plain that the republicans had any real substance apart from the powerful personality of Mr. Roosevelt."

Washington, Aug. 18.—White house officials today characterized as "absolutely untrue in every particular," published reports that Emperor William, through Ambassador Gierard, had complained to President Wilson that Germany was being maligned in the United States and that her motives were being deliberately misrepresented in a campaign to foster anti-German sentiment.

INDIANS IN FAVOR OF WOMAN SUFFRAGE

Bad River Tribe of Chippewa Reservation Decide Question With Little Hesitation.

Ashtabula, Wis., Aug. 18.—Chippewa Indians of the Bad River reservation at the largest council held in years, voted unanimously in favor of woman suffrage.

The primary object of the council was to elect a committee of five to assist the secretary of the interior in preparing a roll of the unallotted Indians on the reservation, there being five or six hundred in this class who still are entitled to their share of the tribal wealth.

Dr. W. M. Wooster of Washington is here to make the enrollment and will be assisted by a committee of five to be chosen by the Indians.

"No Indian should oppose the fight of our women to vote," said William Obern, one of the Indians. The hardest of the home life falls on the Indian. The hardships which follow the clearing of our lands and building of our homes on these forest lands, falls heaviest on our women. They must property use and know how to take care of it. They are more likely to vote for the real welfare of our people than the men. Will someone tell me why they should not vote?" Other addresses were made along the same line.

BIG ENGLISH FORCE LANDED IN FRANCE IN PAST TWO WEEKS

OFFICIAL ANNOUNCEMENT MADE THAT TROOPS HAVE ARRIVED SAFELY ACROSS CHANNEL

SECURITY MAINTAINED

Although British Citizens Were Aware of Move Details Were Carefully Guarded—Allied Armies Prepare to Strike.

London, Aug. 18.—The official information bureau announces that the British expeditionary forces have landed safely on the French shore.

London, (midnight, delayed by censor)—The most important revelation has been that of the landing of a British expeditionary army on the shores of France. Everybody in England has known for two weeks that a large army was crossing the channel. The troops have been assembled at different places, one of the largest contingents embarking at Dublin, Ireland. Many other regiments sailed from Liverpool while still others took ships at Eastbourne, Southampton and other ports along the coast of the English Channel.

The great canvas camps at the military stations in England were struck only when it was known definitely that the flotilla of transport conveying the troops had finished the over-sea movement under the escort of strong squadrons of warships.

The transportation of the soldiers lasted several days and during that time not a mention of the expedition was made in the newspapers. Even now the strength of the expedition, the names of the regiments composing them and the ports where they landed are not allowed to be made public. It is known, however, that a large proportion of the best troops of the British regular army are now on continental soil.

The reception of the British soldiers everywhere in France was enthusiastic. The officers and men of the two armies fraternized warmly.

It is pointed out in authoritative circles here that the withdrawal of the Belgian government from Brussels to Antwerp may mean that the fighting in Belgium is drawing closer to the capital or it may be merely a precautionary measure.

By War Correspondents.

Now that the three allied armies are working together on a coherent campaign scheme, the policy of secretiveness has been extended to Belgium and as a fountain of picturesque news that country has suddenly dried up.

The allied armies have decided for the present to bar all war correspondents from Belgium, the only exception being that of the British army, but it is thought the ban may be raised later when the military operations are well under way.

The official news bureau says not a single casualty occurred during the embarkation, transportation and debarkation of the men and stores of the British army.

Everything was carried through with the greatest precision.

The official news bureau announces in reply to attempts that are being made by the enemy to spread false reports to ourselves and our allies, that "no casualties have as yet occurred to the British army."

PRIMARIES DOWN IN LINCOLN, NEBRASKA

Lincoln, Neb., Aug. 18.—Weeding out of candidates, and the selection of standard-bearers who will lead their respective parties at the election in November, is taking place throughout Nebraska today. Principal interest centered on the race for nominations for governor and the nominations of Congressional aspirants.

Five parties—Republican, Democratic, Bull Moose, Socialist, and Prohibition—have candidates in the field. The state law provides for an open primary, and fixes the day of holding it. The man who gets the greatest number of votes of his own party, regardless of the percentage of vote he polls, must be the nominee of that party.

Governor J. H. Morehead, Richard L. Metcalfe, and G. W. Berge are contesting for the Democratic nomination. The leading candidates for the Republican nomination are Ross Hammond, R. E. Howell, and H. Kemp. H. E. Sackett is unopposed in his race for the Progressive nomination. Many republican candidates for minor offices also are enrolled as Progressives. All present Congressmen from Nebraska are seeking re-nomination today.

FAIL TO ELIMINATE DAHL'S OPPONENTS; HOPE IN MARY ANN

Progressive Republicans Fear Second
Choice Votes Are Only Means
of Defeating Philipp.

Who will be La Follette's Mary Ann? It is on Mary Ann and Mary Ann Alone, in other words the second choice plan, that the progressive republicans of Wisconsin are pinning their hopes of victory at the coming primary election. The attempt made last week to eliminate two of the candidates from the running has been unsuccessful, and the second choice must be put into effect.

The circular letter sent by the La Follette leaders to William H. Hutton, Martin Hull and Andrew E. Dahl carried the intimation that the strength of Emanuel L. Philipp, the conservative republican candidate for governor, was such that it was time the progressives withdrew and the withdrawal of the two candidates and the centralization of a third would be a welcome move to the La Follette leaders.

Evidently the La Follette leaders in Madison hope to centralize the strength of the La Follette forces on Mr. Dahl, as when the replies of the supporters of Messrs. Hull and Hutton were received to the effect that if there were many of a second choice man to leave the field would have to be Mr. Dahl, it ended further talk of a centralization plan as the result of the letter.

Second Choice Plan.
Now the La Follette people have turned to the second choice plan again as an aid to them in their present situation. It has been learned that since Thursday telephone calls and letters have been sent to the La Follette lieutenants in all of the counties of the state asking that they make practically a house to house canvass of the voters and call upon them to be certain to vote a second choice in the coming primary election.

More than this the La Follette people are planning to circulate the state on the last week of the primary campaign with letters in which the progressive voters will be informed of the absolute necessity of a second choice vote being cast, if the nomination of a progressive republican is to be accomplished.

It is said that a most thorough campaign of this kind, in the way of personal solicitation, is planned in favor of this second choice move, and, in fact, it is likely that even in the most heated La Follette campaign no more definite house to house canvass has ever been asked for from the La Follette lieutenants than is demanded now in an effort to get the La Follette voters to register a second choice expression in the coming primary election.

Effective Before.

Whether this definite campaign to bring out a second choice vote will accomplish anything is a question. So far, there has been no definite word as to whether the second choice votes cast in any primary election. Perhaps, however, the great interest which is being taken in the coming primary election may increase the number of second choice votes which are registered in the election.

There is still talk among the La Follette leaders here that Senator La Follette will try to get into the state for a few days before the primary election. Experienced politicians who have watched La Follette in his political career believe, however, that he will continue to direct the La Follette campaign in this state over the long distance telephone, and will not come to the state at all prior to Sept. 2. It can, however, be said that some of his closest followers in Madison seem to think he will be in the state for at least a day or two some time late this month.

LAW GIVES ALIENS PROTECTION ABROAD

Foreign Born Citizens Who Have Declared Intention Are Entitled to Benefits of Law.

Foreign born persons who have declared intention of becoming United States citizens and have resided in this country for three years will be protected by the American government in any foreign country if they are in possession of passports issued by the Secretary of State at Washington, except in the country from which they came to America.

The law governing the situation is as follows: "The secretary of state is authorized, in his discretion, to issue passports to persons not citizens of the United States as follows: Where any person has made declaration of intention to become a citizen as provided by law and has resided in the United States for three years, a passport may be issued to him entitling him to the protection of the government in any foreign country, provided that such passports shall not be valid for more than six months and shall not be renewed, and such passports shall not be issued for the protection of this government in the country of which he was a citizen prior to making such declaration of intention."

Another clause of the naturalization laws provides that when any American citizen has resided for two years in a foreign state from which he came or five years in any other foreign state it shall be presumed that he has ceased to be a citizen of this country. This presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular officer of the United States under such rules and regulations as the department of state may prescribe. No American is allowed to expatriate himself when this country is at war.

EMPEROR JOSEPH IS AN AGED MONARCH

Vienna, Aug. 18.—Emperor Franz Joseph of Austria, Hungary, passed the 84th milestone of his life today. With a long record of misfortunes and tragedies that have relentlessly followed the Austrian royal House of Hapsburg the ruler's birthday comes today when his country is joined with Germany in an appalling war against eight nations of Europe who rose in battle protest against Austrian and German aggression. Franz Joseph is the oldest ruler both in point of age and length of reign of modern times. He will have ruled for 66 years in December—if the rigors of his position and the irresistible approach of the Grim Reaper do not claim him before that time. Instead of the usual unanimous messages of congratulations from every ruler and government of the world, the aged emperor today received such messages only from his own little realm, the German Empire, and from the few nations with whom his country is not at war.

ADVANCE IN PRICES ON INK AND PAPER

Publishers and Printers Are Hard
Hit as a Result of the Euro-
pean War.

Printers of all kinds are being sorely hit by the elevation in prices. The ink, which makes the letters you are reading now, has advanced 10 per cent. That is a tremendous increase and affects every printer, big and small—the one who publishes a newspaper the same as the one who operates a little job office. The rate on paper also has advanced greatly. An important chemical used in its composition comes from Germany, and the supply of course has been shut off completely. Hence the increase.

Newspapers abroad actually are cutting size to save paper. American publishers, if the war continues long, may also be obliged to adopt a similar expedient. High priced papers, those used in making all kinds of blanks, books to a considerable extent, and in job work generally, will cost more highly even than the paper used for news purposes. Jobbers actually are withdrawing quotations on many of the higher grades of paper. The price of type is up too, and linotype metal likewise.

Binders' stock is also rising rapidly and whether the war continues or not all classes of binding must be increased in cost. Quotations are off on much of the German produced leather, the better qualities of leather used in binderies. This especially is hit hard.

So the printer and binder are affected by this war as seriously perhaps as any other manufacturer.

CHEESEMEN CO-OPERATE TO GET BETTER PRODUCT

Plymouth, Aug. 18.—When the dairymen of the state co-operate with each other and with their cheesemakers, the product of the state will be entitled to enjoy a nationwide reputation for its quality, there will be a still greater demand for this product of the dairy and increased prospects for all those engaged in its production.

This was the prediction made by J. L. Sammis of the agricultural experiment station, the University of Wisconsin, at the meeting of the Sheboygan County Cheese Producers' Federation, held here this afternoon.

Closer Co-operation.
According to the speaker, the cheese industry of the state has suffered at times in the past because of a lack of co-operation among patrons, cheesemakers, and between different factories. With closer co-operation, the quality of the product in quality can be made.

The Sheboygan County Cheese Producers' Federation is the first of its kind in the state. It has undertaken the cause for better cheese by means of ages which arise from the co-operative selling of cheese.

How to Improve Quality.
The important steps in the improvement of the state's cheese as enumerated by Mr. Sammis, are: The general adoption of clean methods of producing and caring for milk and milk-making, where they will be paid from one-eighth to one-fourth of a cent a pound more, whenever as a result of the combined efforts of patrons and cheese factory operators the value and selling price of the cheese is increased one cent or more above the ruling market.

"The quality of cheese produced," he said, "depends not only on the condition of the milk delivered at the factory, but also on the knowledge and skill of the cheesemaker, and on the way he does his work. Your cheesemakers are skillful and experienced. They know how to make a soft, poor quality cheese, or a firm, good cheese, and they will make whichever kind you want. When the cheese producers begin to demand the value and selling price of the cheese be made every day from the milk delivered, and when the cheesemakers are paid for their work, not alone on the basis of the yield they contain, but according to both the yield and the quality, there will no longer be any temptation to work for yield, regardless of quality."

Co-operation is essential for success. "If milk from one dairy farm can spoil a factory's cheese output. We must all work together. Your factory organizations can do a great deal, and your federation and its officers can do the rest. With the aid of our organization you can do work in the improvement of cheese quality that unorganized factories would not pull together."

YOUNG MEN GIVE A BANQUET IN HONOR OF EDMUND LEARY

Twenty young men enjoyed a banquet Monday evening at the Grand Hotel in honor of Edmund Leary, whose marriage to Miss Clara Blunk of this city will take place on September 1st. Mr. Leary, who is now on a tour of the young married men to offer advice to the prospective benedict. Those who qualified as sages on matrimonial affairs were Frank Bunt, J. S. Solie, Will McCue and Edward Little. Mr. Leary's response to the friendly suggestions showered upon him was a vocal solo, "My Last Night Single."

NURSE PROVES WORTH AND GETS A HUSBAND

Janesville Woman Called to Attend Mother of Footville Farmer Finds Man of Choice.

Romance short and sweet culminated Saturday in the marriage of Anna Berg of this city and Charles Winkelman, a prosperous farmer who lives with his aged mother on a farm two miles north of Footville. The bride is thirty, while the man of her choice is twenty years her junior.

It came about in this fashion. The elderly Mrs. Winkelman was compelled to take to her bed a week ago. With the harvest at hand the dutiful son, unable to care for his mother, sought the services of a nurse. He found Miss Berg. She was willing to take care of the lady while the rural toil beneath the hot sun in the fields of produce.

With bounteous delights of the culinary art she tempted the inner man of the hard working Winkelman. Through what other channel more appropriate can mere man be chained? It was only a week that the romance was in flight. The nurse was hit, as was the son. The agreement for life's long journey was made. The Rev. Elemen joined a happy union at the home of the groom's mother Saturday afternoon at 6 o'clock. The bride, sojourning at Watertown just now but will shortly return, for the crops must be coming in.

90,000 Wisconsin Homes Are Open To Your Message Today

Wisconsin Daily League, 19 Daily Newspapers published in the best cities in the state, carry your announcement to nearly 500,000 Wisconsin people at a very low cost.

How much would it cost you to circulate 90,000 homes? Several hundred dollars at least. If you used two cent post-stamps for stamps alone, without considering the cost of printing stationery, etc., which would amount to several hundred more.

Yet—it is possible to send your message not only once but a number of times to 90,000 homes

Western Promoters Seek to Pick
Lightweight to Meet Champion
Welsh—Notes of the
Roped Arena.
(By Strikes.)

Elimination matches between the leading lightweights—the legitimate 125 pounders, to meet Freddie Welsh for the world's championship when the Britisher invades the states are being planned. Also matches are being planned in the bantam division and some big shows are likely to result in the western arenas and some chess matches in Milwaukee the coming season.

Since the American contingent that have gained wealth and fame in Australia have returned to the home box, the other boxers have had further arguments on their hands. Harry Stone now lays claim to the lightweight honors and also the welterweight title. While Stone has whipped them all down in the Antipodes, Charlie White and Ritchie still hold the throne in America and before Stone can be considered seriously he will have to show the American fans his self alleged class.

The rumor now goes round that Willie Ritchie has graduated out of the 125 pound class and joined the bantamweights—fighting at 110 pounds, and Ritchie now intends to set the mark for his opponents being the American champ still. The story goes that the former champ will do the terms unless Freddie Welsh throws his gauntlet to him in a seven fight. White probably would rather meet the California battler at the 125 pound mark but that is a matter the matchmakers will have to settle.

State promoters are beginning to look over the field and good bouts are being set up in Wisconsin under the commission rule under which the commission has prospered in this state. The boxing commission have ruled with a firm hand as evidenced by the action taken in the "rehearsed" match between Krammer and Barney Griffin. Both of these boxers are liable to draw a stiff suspension for their attempting to put it over on the Bower club.

It is surprising how many titles have changed hands in the last year. The Americans have lost the golf, polo and now the Australians have snatched off the Davis cup in tennis. In the boxing game the biggest blow was the losing of the lightweight title, but Ritchie has but a few weeks who have dropped their crowns. Bombardier Wells lost his crown in Europe and Pelkey lost the American honors to Smith, who handed them over to Carpenter, the French champ. Jem Driscoll was forced to vacate the featherweight title of Europe to Kid Lewis and the welter belt passed into the hands of Kid Williams. Johnny Coulon being given a belt which shook the crown of the light middleweight title. Johnny Kilbane may be the next to lose his championship when he meets with Johnny Dundee. Jack Johnson is the only one who has been able to keep his crown at home and his back may lose it to the relief of the white race, before many weeks.

Experts express an opinion that there may be separated from the welterweight honors when he meets with Johnny Dundee some time in September. Dundee is one of the best fighters in the ring, being a light and featherweight champion one night as a featherweight and turning around and giving the light and featherweights a trim. This will not be the first meeting of the pair, for Dundee held the title before he acquired the title to it and it is said Dundee earned the belt over Kilbane in a no decision on an earlier date. Dundee's last bout was a draw fight with White the leading American.

There is a hard man to get to as Hayes testified after Dundee's victory in a recent bout in Old England. For he fights in a shell, using "cover-up" stuff to escape blows and when his rival leads, he is dashed out with a left or right and cannot be beat for speed and power.

Ahern, whom illness prevented from meeting Gunboat Smith in a question who fighter, has been crying declare him to be a wizard and picking for the American welterweight and welter. On the other hand British experts pronounce him a wizard and compare him to the power and Sharkey for gift to speed punishment. If he recovers in time to meet Smith on August 24, his colors will show.

The Gibbons, premier welterweight and winner in the middleweight division in a recent interview declares that with a few exceptions the today fighters are without a semblance of class. Gibbons states that this is the alone true in his division, but the light and heavy boxers for the most part are fast becoming slugs of the fat Nelson type—head down, snoring and slug for dear life. This class lets their opponent lambast them on the jaw until their strength is spent and then matters are reversed by superior strength. At the very king pin of the lightweights will cover in a shell, sail into his opponent and in order to land one good blow is willing to take three to the face. The more Wolcott is in the tighter he draws his shell.

business proposition with him for he is willing to take three wallops in order to land one on the credit side of the ledger. Counting appears to be a lost art for the offense now, for Gibbons says it is a rushing smashing attack which is intended to wear the other fellow down. Instead of a boxer scoring a knock-out by slipping across one good punch through a quick delivery and clever move, the knock-out today wears down his rival and scores his knockout, not with one, but with a dozen punches.

Eddie Kelly, the brilliant New York lightweight won a clean cut decision over "One Round" Hogan of Frisco at the Juarez arena Sunday. Kelly bounced over every kind of punch on Hogan's anatomy and went the 20 rounds at a terrific pace. This victory is a rapid climb for the New Yorker.

Matty Smith, Racine featherweight is reported to be dying in a hospital at Hot Springs, Montana, as the result of injuries sustained in a bout with a feather named Atwood at Butte several weeks ago. It is to be hoped that the Racine boy recovers, but operations have failed to revive him. Jimmy Murphy and Grover Hays battle ten rounds at Hammond tonight and the winner will probably land a windup bout in Milwaukee for his showing. Hayes is a veteran at the game but few men can beat him by a big margin.

Ritchie Mitchell, Milwaukee featherweight has invaded Denver and will meet Benny Chavez, 20 rounds, August 17th.

Sport Snap Shots

The dope about Larry Lajole being about through calls to mind the many cases of players who have reached such a point to be in later season played better ball than they had ever played before in their lives. Lajole himself is a pretty example of this. As far back as 1907 and 1908 he was thought to be on the slide when he ended the season with a batting average below .300. But in 1909 he came back with .239, and the summer following he batted .334 and enjoyed one of his most brilliant years—and that six seasons after he was thought to be in as a ball player. Johnny Evers has one similar trick. In 1911 he was said to be ready to quit, having batted .236 and apparently having suffered much in health. One and all affirmed that he was booked for the brush. So it was three seasons ago and yet this present season he has been hitting a respectable clip and playing one of his most brilliant fielding game for years.

CECIL COOMBS IS WELCOMED BY SOX

Cecil Coombs.

Cecil Coombs, a young outfield recruit, is being very favorably regarded by Chicago White Sox fans. His behavior thus far in the field and at bat has convinced one and all that he has lots of stuff and will develop into a regular performer. Jimmy Callahan has spoken glowingly of Coombs' change and declares that he is one of the "finds" of several seasons.

OVERLOOKS SCENE WHERE BIG NAVAL FIGHT MAY OCCUR

Decatur, Ill., was very anxious to see Walter Johnson pitch. The Senators were playing the local organization that day and the fan mentioned went out to the game hoping that Johnson would be in the box. Great was his displeasure when it was seen that Walter would not pitch that day, someone of the other Washington twirlers warming up. The fan determined that he would not leave the park without seeing the great Walter in action, went down to the clubhouse and offered Johnson \$50 if he would but pitch one inning. In spite of the fact that he receives a good salary and has every want, Walter decided to take the money. The fan got his money's worth. Johnson pitched just nine balls and the first three batters faced him, all of them fanning horribly. The fan went home happy and feeling that his money was well spent. Many another fan present, however, was able to see it for nothing.

With perhaps a few rare exceptions most big league stars have their seasons. This appears to be true in other sports as well as baseball. After a season of wonderful playing a player will seem unable to show anything like his best form. As far as is known there is no very plausible reason for it all but the facts show up in the records. Ty Cobb, Matty and Honus Wagner are exceptions. They never appear to slump.

OPEN GOLF TOURNEY TO START SHORTLY

Blue Island, Aug. 18.—The first qualifying rounds of the national open golf championship of the United States were scheduled to start today on the Midlothian links. The matches will continue through August 21. In case of a tie in the finals as occurred last year at Brookline, Mass., when Culmer, Vardon and Ray finished on even terms, the play off is set for August 22. Another plan arranged for the first time last year at Brookline—which will be followed will be for two qualifying rounds, thirty-two to qualify to be played each day. One half of the field entered was to play two qualifying rounds today. These thirty-two and the thirty-two who turn in the lowest scores in tomorrow's two rounds will play in the championship test on Thursday. Thirty-six holes will be played that day and thirty-six again on Friday. The holder of the lowest score for the seventy-two holes of Thursday and Friday will be the 1914 champion. Ten money prizes are offered to the leaders. The title winner will receive \$300 cash and custody of the trophy for the year. Second man will receive \$150 and so on down to the tenth man who receives \$20.

Janesville People Caught Abroad
Making Haste to Reach Safety.

Some Not Reported Yet.

Janesville visitors who were caught
abroad when the present war broke
out, are arriving on this side in all
haste. Drs. Woods and Nuzum land-
ed in Montreal last night and will
probably reach Janesville Wednesday
some time. Dr. V. Holmes had a
telegram from Quebec from Mrs.
Holmes, who with Miss Elizabeth
Holmes and Master David Holmes
were in Paris when war broke out.
Sitting there would reach Montreal
last night and Chicago within twenty-
four hours. N. L. Carle received a cable
from his sister, Mrs. Josephine Carle
Paired, stating that she had reached
London safely. Mrs. Paired was with
a party of friends in Norway and Swe-
den when the war started. Mrs. M.
G. Jeffris and her daughter, Miss
Helen, are still in England, but will
fall on the Atlantic. Nothing has been
heard from W. Jeffris and party
who were supposed to be on the way to
Constantinople when war was de-
clared and are probably retreating
from the city and will sail from Italy
for home. Mr. and Mrs. Charles
Wild and Miss Wild, thought to be in
Germany, have not been heard from
nor has Francis Connors, who is sup-
posed to be either in Berlin or on his
way to some port of sailing. Other
Rock County residents are believed
safe or on their way to this country,
the lack of information being due to
delays in cable companies are de-
laying messages.

WILL BE GOOD AND SUPPORT HIS WIFE

George Truesdell Makes Promise in
Municipal Court—Edgerton
Money Case Ad-
judged.

On complaint of his wife, Matilda,
George Truesdell appeared this morn-
ing before Special Prosecutor John
Cunningham who in the absence of
Municipal Judge Harry L. Maxfield,
presided in municipal court. Trues-
dell, according to the complaint
refused to support his wife. Trues-
dell made a denial of the charge while
before the bar and stated that in his
position he was doing the best possi-
ble for his family. Truesdell's
court was adjourned until September
18 following his promise to take
care of his wife in which capacity he
appeared perfectly willing. They
left the city hall together.
Henry Rickard and Henry Albert
were arraigned in court this morning
on the charge of obtaining money
under false pretenses. The two
pleaded not guilty and trial was set
for Monday.

COUNTY COURT HAS LARGEST CALENDAR

More Than One Hundred Cases Must
Be Disposed of at Regular
September Term.

More than one hundred matters
for settlement in the Rock County
court will be on the calendar for
the regular September term,
which opens on Wednesday, Sept. 2.
This is said to be the largest number
of cases ever scheduled for settle-
ment at one term in the history of
the local court. As there is no term
of court in the month of August and
but one term in July, there is a large
accumulation of business during the
summer season. The special Sep-
tember term will also be an important
one, judging from the number of mat-
ters already listed for that session.
Prominent among the estates to be
probated at the regular term is the
John Thompson estate of Beloit and
the Julia A. Myers estate of Janes-
ville, which has been hanging fire for
several months, pending the settle-
ment of a will contest.

MISS MAE HUNTRESS WEDS HARRY WEIRICK

Quiet Ceremony Took Place at Two
O'clock Today at Bride's Home
on East Milwaukee

In a quiet wedding this after-
noon at two o'clock at the home of
John Huntress, 215 East Milwaukee
street, a daughter, Miss Mae E. was
united in marriage to Harry Weir-
ick of this city. Rev. T. D. Williams
of the Methodist church performed the

father, who is expected to be in the
city a few weeks ago at his home.
The bride is employed at the
Skelly book store and is well-
known in this city, while the bride is
an attractive young lady with sterling
qualities.

WANTS INTERURBAN LINE NEAR FULTON

Indian Ford Man Wants to Know
What Janesville Will Do Re-
garding His Proposed
Route.

S. W. Coxhead of Indian Ford was
in conference with Mayor Fathers at
this morning to see what course or co-operation the city
of Janesville would take with farmers
of the town of Fulton and vicinity
relative to the routing of the proposed
interurban line from Janesville to
Madison through Indian Ford or Ful-
ton. Mr. Coxhead is anxious that the
line be built through this neighbor-
hood and represents the sentiment of
his district.

SPIRIT AT BERLIN DELIGHTS KAISER

Gives Degree to Lord Mayor of Cap-
ital in Which He Thanks People
for Demonstrations.

[BY ASSOCIATED PRESS.]
Berlin, Aug. 18, 3:00 p. m.—The
German emperor before his departure
from the imperial capital on Sunday
received Adolf Wermuth, lord mayor
of Berlin to whom he handed a de-
gree saying that the emperor in leav-
ing the capital wished warmly to
thank the population of Berlin for all
its demonstrations and proofs of love
and devotion which he had received
during these days. The decree added:
"I am firmly convinced that with the
help of God, the bravery of the
German army and navy and that un-
questionable unanimity of the German
people during these hours of danger-
ous victory will crown our cause."
Signed, William XI.

RETURNED FROM BIG MEETING YESTERDAY

H. A. Palmer and Family Attended
National R. L. C. A. Association
at Washington.

Mr. and Mrs. H. A. Palmer and
daughter, Caroline and George Hiller
returned to this city yesterday after
having attended the national
convention for rural mail carriers at
Washington, D. C., during the past
week.

The following song composed by
Miss Caroline Palmer was adopted at
Washington as the national R. L. C. A.
song by a unanimous vote. Miss
Palmer was also elected an honorary
member of the association. There
were 221 delegates at the big meet-
ing and some 1,800 visitors. The con-
vention was a great success, and a
good time enjoyed.

The song consists of the following
words:

NATIONAL R. L. C. A. SONG.

Tune: Battle Cry of Freedom.
We will rally at our national rally once
again.

Boosting R. L. C. A. forever.
We will gather from the mountains,
We will gather from the plains,
Boosting R. L. C. A. forever.

Refrain.
The National for ever, hurrah boys,
Down with your knocking and up
with your cheer!

While we rally at our National, rally
once again,
Boosting the R. L. C. A. for ever.

We are answering to the call of our
brother Carriers strong,
Boosting R. L. C. A. for ever.

We will fill our rolls with members,
from the working hard and long,
Boosting R. L. C. A. for ever.

We will welcome to our numbers each
Carrier brave and true,
Boosting R. L. C. A. for ever.

Though you think you can't do much,
you can be a worker, too,
Boosting R. L. C. A. for ever.

So we're gathering brothers all from
the east and from the west,
Boosting R. L. C. A. for ever.

And united in our cause we will do
our very best,
Boosting R. L. C. A. for ever.

PLAN BUSY PROGRAM FOR COMING WEEKS

Supervisors of City Playgrounds An-
nounce Events for Last Two
Weeks of Season

Walter Cox, supervisor of the play-
ground system, has prepared a busy
program for the children of the city
for the remaining two weeks before
the plots are closed for the season.
Baseball games for both girls and
boys, a hike, swimming races and a
field meet will keep the children
interested until August 29th. On the
result of the baseball games hinges
the championship of the city league
while the swimming and track and
field meets will bring out the best
athletes in the younger generation.

During the Janesville Fair week
the attendance at the plots was
small but since that time renewed
interest has been taken in the final
contests of the playground season.
Practice has been started by the four
directors to train the boys and girls
for the events which will be held at
the meets.

The main interest is at present
centered on the baseball games which
will be played this week. The
Adams and Webster school teams are
now in the lead with three games won
and one lost. The Jefferson is
second and the Washington last.

Four games remain to be played.
Following is the schedule, Tuesday
Washington at Webster, Wednesday,
Adams at Jefferson, Saturday, Wash-
ington at Jefferson, Monday, August
24 Adams at Webster.

On Thursday of this week the girls
indoor baseball teams of the Jeff-
erson and Webster schools will clash
on the Webster diamond. The two
teams met once before this summer
and engaged in a lively ten inning
battle with the fourth team lead-
ing at the finish by a close score.

The Jefferson nine has been
practicing since then and are now
sure they can even things up with
their rivals.

Entries are now being secured by
the directors for the various events
which are to be staged at the field
meet on Wednesday, August
26th, and for the swimming meet on
Friday of the same week. The
children will be divided into classes
so that all will have an equal
chance of winning events in their
class. The events are not limited to
baseball. It is enough girls wish to
complete a program similar to the
boys will be arranged. In order to
make both the swimming and field
meets a success all entries for the
events must be handed in before next
Monday. This will give the directors
time to arrange a program for the
day.

The final hike of the year will be
held Friday when the children of all
the playgrounds in the city will
journey to Crystal Springs for a day's
outing. The five directors will have
charge of the party which will leave
this city at nine o'clock. The return
trip will be started at four thirty so
that the boys and girls will arrive
home before six o'clock.

MONUMENT DEALERS MEET FOR ANNUAL CONVENTION.

[SPECIAL TO THE GAZETTE.]
Milwaukee, Wis., August 18.—A
\$200,000 display of machinery and
domestic and foreign granite was the
principal attraction here this morn-
ing when the National Retail Monu-
ment Dealers' association opened its
annual convention at the auditorium.

The dealers were shown hundreds of
designed machinery.

Members of the association had a
busy time once the program was
begin and it was promised that every
hour would be filled with either busi-
ness or entertainment.

The Ladies' auxiliary met separate-
ly. A trip to Washington park to-
morrow is one of the entertainments
promised the women.

The Evening Chit-Chat

BY RUTH CAMERON

ON WORTHLESS COMPLIMENTS.
WHEN is a compliment not a compliment?
 Did you ever ask yourself that question?
 Or did you find approbation from any source so sweet a morsel that you never stop to analyze it? There are a great many people who are obligingly uncritical of others' opinions—that is, when these opinions are favorable to them. In the opposite case—well, that's quite another matter. Then they are sure to analyze the motives most carefully and to find that envy or jealousy or a mean disposition on the part of the critic is at the root of the criticism.

The return to the main road, the true value of approbation is determined by two factors: the conditions under which it is given and the judgment of the person who gives it.
 A neighbor of mine was most delighted the other day because her dressmaker said that she had the best figure she had ever fitted. "And she ought to know something about figures," said my neighbor, fairly brimming with delight. So she had. That is, one factor in the approbation was entirely satisfactory, but how about the other—the conditions under which it was given? The dressmaker is new to the town and is trying to build up her trade. My neighbor is a very dressy woman whose patronage means considerable. Furthermore, she has a circle of well-to-do friends. But does it seem altogether impossible that the dressmaker may have had some ulterior motive in thus praising her customer's figure?

Some people, far from being critical of prejudiced approbation, deliberately invite it. They more or less ask for it. I know a woman whose husband looks decidedly younger than she. She suspects this fact, but hates to believe it and she is continually appealing from her own fears to the opinions of other people, and especially of such people as are under an obligation to her or dependent upon her. At the other end of the scale, a soft-tongued immigrant from the land of the Blarney Stone, assured her that she didn't look a day over twenty. She is twenty-eight.

There are none so blind as those who don't want to see. The people who compliment receive them in a vast majority of cases. No other kind of fishing is so uniformly successful. Fifty per cent of the population will say what you want them to without a moment's hesitation. Forty-five per cent more will compound with their consciences and get as near to what you expect of them as they can without a downright lie. Not more than five per cent, probably less, will say what they really think without reference to your desires.

There are many conditions under which a compliment is no compliment at all, and the man who has not learned to weigh approbation in the scales of common sense and trim off the half of it when that is necessary, has missed one of the alphabet lessons of life.

There are none so blind as those who don't want to see.

The Kitchen Cabinet

Luxury and dissipation, soft and gentle as their approaches are, and slowly as they throw their silken chains about the heart, enslave it more than the most active and turbulent vices.—Hannah More.

SOME RECOMMENDED DISHES.

The following is not a common dish but one which seems to be a great favorite with those who like beans:

Bean Stew.—Cover a pint of navy beans over night with cold water; in the morning drain and cover with fresh cold water, bring slowly to boiling point and add a fourth of a teaspoonful of soda, boil five minutes.

Now drain and rinse with warm water, then put to stew in a clean saucepan with just enough hot water to come to the top of the beans. Cook very gently until the beans are tender, season with salt, and just before serving there should be no water left in the pan. Add a half pint of rich cream and serve hot.

Date Cake.—Take a cup of sugar, an egg, a cup of dates which have been covered with a cup of boiling water, and a teaspoonful of soda, cool, add two tablespoonfuls of butter, a teaspoonful of vanilla, a teaspoonful of baking powder and one and two-thirds cups of flour, a half cupful of walnut meats. Bake in a sheet and frost with a half cupful of sour cream, a cupful of brown sugar boiled together until creamy.

For a change of flavor when making a white cake mixture, caramelize three-fourths of a cupful of sugar and a half cupful of boiling water, boil until thick, cool and add to cake.

Pimiento Bisque.—This is certainly most appetizing for those who enjoy the red pepper. Take the pulp of six red peppers, two teaspoonfuls of salt, half a teaspoonful of tobacco sauce, three pints of chicken stock cooked with a half cupful of cooked rice, add more seasonings if needed.

Spanish Chops.—Gash French chops to the bone and stuff with six tablespoonfuls of bread crumbs, three tablespoonfuls of boiled ham chopped, two tablespoonfuls of mushrooms, two tablespoonfuls of butter. Dip in egg crumbs and fry in deep fat.

The prettiest of salads is a solid, well rounded tomato cut in eighths without separating the sections, sprinkled with pearl onions and served with French dressing, which is seasoned in addition with chopped green peppers.

NEBRASKA WOMEN HOPE FOR VICTORY IN FALL.

[BY ASSOCIATED PRESS.]
 Lincoln, Neb., August 13.—Vagaries of what is admitted to be a vigorous, sensible campaign, disclaiming connection with any form of militancy, and going ahead on a platform of "sweet reasonableness," Nebraska women are expected to bring about the winning of the ballot at the contest in the fall. Not until recently has there developed any opposition to the women's campaign. Some position has begun to be taken, but so far it has not developed any great strength.

William Jennings Bryan's recent unqualified endorsement of the woman suffrage cause has brought a great satisfaction to Nebraska women. The mere announcement of his advocacy and support of equality politically for women is regarded by the suffrage leaders as a great boom to the cause. Undoubtedly it has been a great boom. Bryan's personal following throughout Nebraska is large, and it is admitted that his joining the suffrage ranks will bring to the cause next fall many thousands of votes. Some even declare that the Bryan announcement will mean at least 10,000 votes for equal suffrage. Others predict less.

Whether or not Secretary Bryan will campaign for the suffrage cause is not known. It is considered not unlikely that he will. Strong influence is being brought to bear on Bryan in Washington to cover the state in a whirlwind speech making tour in the interests of the cause. It is believed he will consent to make at least a few in some of the admitted "blue territory." The fear that woman suffrage will bring to it prohibition in the course of time, is one of the best arguments that the anti-suffragists have covered up to keep their own equal rights from men at the polls. However, this factor is working two ways. Undoubtedly many whose bitterness against prohibition has led them to confuse the woman suffrage and prohibition causes, will vote against the amendment. Undoubtedly others, favoring prohibition, and believing prohibition will follow votes for women, have laid aside strong prejudices against giving women the ballot and will vote for the amendment.

Those working for the vote have expressed utmost confidence in victory. All fall, all winter, and with the ballot, and thousands who oppose giving women the vote admit that it must come ultimately, that fortune will favor them this fall. The campaign, however, will have the help of several other eastern leaders. To win their battle the suffragists must have eighty-eight thousand, five hundred votes. The number is thirty-two per cent of the total vote of the state, the percentage required by state law for the passage of a constitutional amendment.

Modern Youth.
 "What did Gwendolyn say when you asked her to marry you?" asked Mr. Cumrox. "She told me to come and see you," replied the confident youth. "Having done so, I shall go back and tell her that I don't object to you in the slightest."—Washington Star.

XLVIII. In Which Mr. Todd is Dismissed.

After a week unusually strenuous, she had rather liked him, too, at first! Peggy is lying late this morning. In looking back to review the vigorous experiences of the week past she wonders that she ever survived them. The truth is Peggy has been unused to any very extreme species of exertion and the athletic events she has tried with Mr. Todd have all but worn her out.

What few aspirations she may have had in the way of physical culture have been thoroughly dispersed. It seems to Peggy that the exhaustion she now suffers approaches a nervous decline. And together with the decline she has acquired for all outdoor activities and sports she feels a strong disinclination to the society of Mr. Todd.

At the thought of Mr. Todd, Peggy becomes aware of a vague feeling of nausea. Throughout the past week he has failed not one day to pay her a call. She shudders when she recalls his manner of stepping briskly up the walk with a suggestion of some new form of nerve-racking distraction. And

Every Day Talks To Every Day People

(BY FRANCES JOYCE KENNEDY.)

A mother who had rather a bit of trouble over her small daughter's habit of tattling, after trying different ways to cure her, adopted the following plan of action. Instead of asking to hear the both sides of the story, she listened patiently to the recitals of tales that made the absent child the deep-dyed offender. She sympathized with her own child and ended up by saying: "They are naughty children. Far too naughty for my good child to play with. Keep strictly away from them."

The plan worked like a charm. In a very short while the little girl had no one to play with at all. She had carried tales about near all of her playmates, since mother would be sympathetic. That was what the mother aimed at. One day the little girl came crying into the house. "I have no one to play with," she wailed. "She coax her mother to allow her to play with the children next door. The mother feigned surprise and horror. "They are naughty. I cannot have you play with them."

The little girl broke down and admitted that without exception her tales had been overdrawn. She had told what her playmates had done, but her own misdeeds had been covered with the kindly pall of silence. After a kind talk wherein the mother sought to explain the evils of tattling, she was allowed to join her companions again. The little lesson brought really good results.

CHICAGO HOUSEWIVES WILL FIGHT HIGH PRICES.

[SPECIAL TO THE GAZETTE.]
 Chicago, Ill., August 13.—Arrangements were all completed today for the big massmeeting of Chicago housewives to be held in the Grand Opera house tonight to protest against the sudden boost in meat and other food prices since the outbreak of the European war.

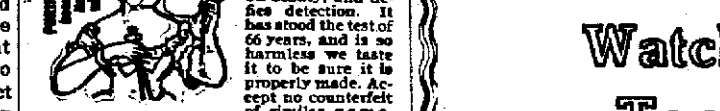

The call for the meeting was sent out by Mrs. George A. Soden, vice-president of the Illinois Equal Suffrage league, calling in the protest movement were many of the most prominent clubwomen in Chicago and the mass meeting had the sympathies of several councilmen and other city officials interested in the marketing problem.

The big Chicago meat packers are sure to come in for a scolding tonight. The women complain that the packers have used the European war as a pretext for making unwarranted increases in the price of meat. They assert that while because of a shortage in the hog market, the packers jumped the wholesale price of pork from 6 to 8 cents a pound and tried to force butchers to buy pork from cold storage warehouses.

Several remedies will be suggested at tonight's meeting. The establishment of five great municipal markets in Chicago will be proposed. A city-wide boycott of women who will agree not to buy meat until the packers lower the prices is a possible outcome of the demonstration.

BUTTER FOR THE HOT CORN

Dining Table Convenience to Apply Economically and Quickly.

Corn on the cob may be considered the great American dinner table favorite for the approach of the hot corn season is always regarded with anticipation by nearly everyone. We have among our acquaintances one man who wears with pride a great black moustache all the year around, except during the corn season when he makes a heart-rending sacrifice of the brave moustache in order that he may fully enjoy the delights of eating corn from the cob without interference. There are many devices on the market designed for the purpose of facilitating the opera-

tion of eating corn, and the latest to be added to this line is the one shown herewith, which is a device to facilitate the application of butter to the usual manner with a knife the task is somewhat awkward and is extravagant in the use of butter as much of it flows from the hot grains of corn, but the new table apparatus overcomes this. It is a spoon-like design with facilities for accommodating quite a large piece of butter which is covered by a perforated lid of metal. This being held over the hot ear, sufficient is melted to season the corn properly without any waste.

Obedience.

Only Sure Corn Cure Ever Known

"Get-it" the New Way, 2 Drops Do It
 To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. New-plan corn cure, "GETS-IT" is the one ever known to remove corns without pain, without trouble.

This is why it is the biggest selling corn cure in existence today. It is now used by millions, because it does away with the old, with "barbarous" that cause pain and pain, with knives, razors and files, clawing and pulling at a corn. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitutes. Try it on any corn, wart, callus or bunion to-night. "GETS-IT" is sold by drug stores everywhere. 25c a bottle. Sent direct by E. Lawrence & Co., Chicago.

Heart and Home Problems

Dear Mrs. Thompson: I am a girl of twenty-one years and have pretty black hair, but notice is turning gray already. It starts from the roots of the hair and at the ends they have their natural color. I have a long time, but see now that they are increasing. My hair is very oily and always full of dandruff.

Is there anything that you could do to prevent them from turning more gray and that will not hurt the hair otherwise? It is not good to pull them out? Is it harmful to use baking soda or borax for washing hair? What might be the cause of my hair turning gray so soon?

Several friends come up to be already and said: "If you are getting old, your hair is turning gray already."

WORRIED.
 In the first place, my dear, you must not worry over your hair turning gray. I doubt if it will turn enough to be really noticeable, though there are always some unkind friends who will notice the slightest change and make one unhappy by speaking of it. You could understand why friends feel that they know we would rather have ignored.

About the best suggestion I can make to you is to massage your hair with every day and brush it thoroughly once or twice a day with a clean, fairly stiff brush that will reach to the scalp. Wash it only about once a month, but once a week or dip your hair brush into a dish of kerosene (oil) and brush your hair well with that. Keep away from fire, of course.

When washing the hair use soap and warm water. Rub the hair well into the scalp, then rinse in several waters until the last water is perfectly clear, and brush the hair dry.

Keep the hair well aired and do not do it up tightly at any time. Keep your general health good, keep happy, and your hair will be in better condition.

Dear Mrs. Thompson: My husband and I have been married four and one-half months now, and we live in a neighborhood where there are a number of "drunks."

Now my husband does not drink enough to amount to anything—only a glass of beer in a week or so. Do you think it best to keep company with these neighbors? They have a "dinner drink" once in a while and get pretty well filled up when they are in town.

MRS. NEWLYWED.
 It would be better not to get on intimate terms with them. Tell your husband that if he cares to drink beer, let him go out with others, as the others will only want him to spend his money for them. After a man gets his first drink, you know he has lost his common sense and is apt to spend everything he has "treating."

Dear Mrs. Thompson: (1) Is it proper for a young lady to ask her gentleman friend to come in after a drive or upon returning home after going some place together? Or should the young man ask to come in?

(2) At what age is it proper for a girl to "start out in company?" (1) If she wishes him to come in she should ask him if he would like to do so. It is not his place to ask. (2) I don't exactly get you, my dear, unless you mean to ask at what age a girl should have a beau. I suppose a beau is permissible when a girl is seventeen or eighteen, but she shouldn't take either the beau or herself too seriously at that age.

Household Hints

THINGS WORTH KNOWING.
 Carrots should be cut in slices instead of cubes, because the outside part which is the darkest is the richest. It cut in slices it is more equally distributed.

Solids spots may be removed from white silk or satin by rubbing them with a fine piece of cloth dipped in a little alcohol or ether.

A teaspoonful of borax put in the last water in which clothes are rinsed will whiten them surprisingly. Pound the borax so it will dissolve easily.

When making lemonade dissolve the sugar in a little hot water. This prevents the sugar from sinking to the bottom of the water and will sweeten it more quickly.

THE TABLE.
 Cauliflower a la Poconno.—Select a fine young head of cauliflower, remove the outer leaves, cut in small pieces and wash well in cold water. Tie a piece of thin cheese-cloth, put into a pot of boiling water and boil quickly for twenty-five minutes or half an hour, until it is quite tender. Remove carefully without breaking it, and lay on nicely toasted bread, well buttered. Make a half pint of white sauce, using chicken stock, if you have any hand, and salt and pepper to taste. When it boils up, add some button mushrooms, chopped fine, and cook a few minutes longer. Remove from the fire and add the well-beaten yolks of two eggs, a little grated nutmeg, and the juice of half a lemon. Vinegar may be used in place of the lemon. Do not let the sauce boil after adding the egg.

String Beans a la Roma.—Choose young tender string beans, cut off the ends and remove the strings, but do not cut them, unless they are more than three inches long. Wash well in cold water, letting it run over them into the colander. Put them into a baking dish with a kitchen spoonful of good salad oil, a little minced onion, parsley, salt, and pepper. Cover and place over the fire and cook slowly. As the beans dry, add the strained juice from the tomatoes, or a thin tomato sauce. Watch that they do not burn, as only

Bohemia's Forest Area.

Bohemia has a forest area equal to 29 per cent of its total area, and the quantity of wood cut annually averages 6,474,105 cubic yards, of which 4,316,070 cubic yards are suitable for building and manufacturing, and the remainder for fuel. Bohemia exports annually about 1,307,900 cubic yards of forest products to Germany.

DRAFT HORSES ARE INCREASING DAILY

Automobile Popularity Does Not Effect Use of the Horse—Better Breeding.

Wisconsin horses, despite the popularity of the automobile, have increased since 1907, 40,500 in number and \$23,868,000 in value. The draft horse still is the most economical motor for farm work and in the cities is said to increase 30 per cent in value during the time it usually takes to wear out a motor truck.

The total number of our horses on the first of last January was 67,000 valued at \$32,500,000 or a total of \$23,868,000. Seven years ago the average value was but \$107 per head. That year (1907) Wisconsin stood eleventh among the states in number and total of horses and thirteenth in average price.

We are Producing Better Horses.

Our horses also are gradually improving in breeding, soundness and quality. In 1907, 65 per cent of our public service sires were graded and in 1914 these have fallen to 45 per cent and throughout the state they are fast losing popularity and patronage.

This improvement largely has been brought about by our stallion law which went into effect January 1, 1906, and by a concerted, active and widespread educational campaign in favor of improved breeding. Many notoriously unsound stallions have been driven out. Sounder, better horses are taking their place and pure bred mares are being introduced for the home production of needed sires. But with it all further improvement is still needed.

Quality of blood is desirable, but not paramount. A stallion, despite his fancy pedigree, may be individually a scrub, or poorly formed, or partially or wholly impotent. While pure bred sires should in time wholly replace grade and scrub stallions they must be individually excellent, sound, suitable, fit, and muscular and prepotent.

Why Go Abroad for Superior Stock?

Wisconsin can produce her own supply of such sires. We have the requisite conditions and facilities for such breeding operations. All we lack is an adequate stock of selected pure bred mares and co-operation and constant enterprise in their ownership and use. Several county horse breeders' clubs have been organized. The home production of needed pure bred sires has started and is being pushed. But by such home breeding and selection of the undesirable sires of the state the economically and satisfactorily replaced.

The total number of pure bred stallions in the state now is 1774, bred with 1423 grades and scrubs. The number of scrub stallions still disgracing the state is 404, but they should be quickly eliminated, now that they are plainly "labeled" by law. There are also 14 non-standard and six cross-bred stallions in service. The total number of standard bred trotters and pacers is 316. Percherons still lead in popularity, 1019 of 1366 pure bred stallions of the state being of the breed. Pure bred stallions number 157. Clydesdales, 76; French Drafts 65; Shires 48; and Suffolks, one. Of the light breeds, apart from trotters, 18 are French Coach, 19 German Coach, Five Hackney and 22 Morgan. There are also 4 Jacks, but they speak for themselves.

GIVES WARNING ON SHORT-CHANGE PLAN

New System Used by Thieves, to Fleecce Jewelers of Watch and Chain for \$20 Bill.

Chief of Police Champion gave warning to the merchants of this city of an clever short change scheme that has been worked in southern Wisconsin of late by crooks. The system employed is usually worked on jewelers and their short change men's plan of working is as follows:

A well dressed man told the jeweler he wanted to secure a certain widely advertised watch. The jeweler was sorry but he was out of that particular brand. The gentleman would call again in two or three days he might get what he wanted.

The gentleman was much disappointed but wanted to know if the jeweler could not let him have a watch from stock to carry until the shipment arrived. The dealer at first refused but later relented. And the well dressed gentleman is still carrying the watch so far as anyone here can tell.

A short change game which worked is good in any line, according to the men who have been the victims. One swindler makes a small purchase paying with a \$20 bill. Some time the confederate makes a purchase paying with a \$1 or \$5 bill. On getting his change he tells the clerk that there has been a mistake as the customer handed over a \$20 bill. The clerk thinks he knows his business and declares that it was a \$1 bill. The swindler sticks to his story and as a last resort quotes the serial number on the bill. Upon the serial number being given the clerk usually gives in, handing over the change for the larger bill.

Rains the Next Day

The Barmid—"You wouldn't be always broke if you saved up for a rainy day." The Other—"I often do, miss—but it always rains the next day."

THE BELL BOY KNEW IT WAS 3 A.M.

JUST because you want tobacco satisfaction is no reason why you need to put a big wad in your cheek, and then have to grind on it. A small chew of "Right-Cut" satisfies you. It's the Real Tobacco Chew. The glad news spreads from friend to friend. Very likely you yourself have already started several of your friends on "Right-Cut."

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that you want. Tuck it away. Then let it rest. See how easily and easily the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

If your dealer does not sell it, send us 10c. in stamps for a pouch of "Right-Cut" Chewing Tobacco.

Miss Irma Hall, who has been visiting at the home of Mr. and Mrs. Frank Goodrich, has gone to Delavan to visit relatives.

Dollar Day Wednesday, August 26th. The Biggest Event Ever Planned By Janesville Merchants

That Dollar Day, Wednesday, August 26, will be the biggest day in the point of attendance and sales that the local dealers have ever experienced is the general consensus of opinion today. The hundreds of inquiries received yesterday regarding Dollar Day and the general interest its announcements have aroused point the way to an assured success.

What Is Dollar Day?

It is one day upon which all the merchants of a city combine to offer the public one rousing big sale and to give it added attractiveness a single dollar is made the price of all bargain offers.

The point is to make the day within the reach of every possible customer and it is felt that a dollar is a thing that can be secured and saved for this day by everyone it is possible to reach.

What Dollar Day Offers The Customer

While the day is essentially to allow local merchants to attract crowds to their places of business, it is to the customer within reach of the city that the day is of real value. The merchant simply turns his goods into money, in many instances at cost and less than cost, while the buyer is allowed the opportunity, for the one day, of buying goods at a figure that must result in a considerable saving. Money saved and expended on this day will purchase far more than it will the day before or the day after. A dollar thus saved is as valuable as one earned.

Dollar Day If Supported By The Buying Public of Rock County Cannot Help But Result In An Enormous Economic Saving To The Community

Plans already under way point to its being a gala day here. Business houses will decorate; plans for entertaining the shoppers are being matured. Dealers are vying with each other in who can provide the most attractive bargains and nothing will be left undone to make it a day to be long remembered by the shoppers of this vicinity.

ELIHU ROOT MAKES SEVERE ATTACK ON DEMOCRATIC REGIME

(Continued from page one)

Republican voters are to select candidates for twenty-four offices to be filled by the voters of the entire state. United States senator, judge of the court of appeals, governor, lieutenant governor, secretary of state, comptroller, attorney general, state treasurer, state engineer and surveyor, and fifteen delegates at large to the constitutional convention.

Under the conditions of the new primaries, Senator Root saw many pitfalls. He saw defects in the primary law, but urged upon the republicans that it was their obvious duty to accept it for the present in good faith. The duties of the convention, he said, were to adopt a platform upon which the republican candidates chosen at the primaries might stand; to approve the proposal of the national committee of the party to make representation in the national convention; to confirm more closely to the republican vote in the several states; and to represent the republican voters of the state in consulting about the policy to be followed by the party in selecting candidates so that the voters might act effectively at the primary election "with a common purpose to secure party success at the regular election."

He foresaw an unfortunate result if in each place the republicans were to vote at the primary, "as they naturally might, for residents of their own vicinity, or if the voters of one place were to vote in that way while the republicans of all the rest of the state divided among a great number of candidates."

Our opponents will have no such trouble," he continued. "More than half of the normal democratic vote of the state is cast in the city of New York, and the great mass of those voters, following the directions of their local party organization, will distribute the nominations as that organization directs. The voters in the republican primary, scattered through sixty-two counties, unheeded, will follow nobody's direction, but will act each according to his own judgment, and it will be necessary that they themselves shall consider what will be the effect of their action in regard to the distribution of candidates."

For the chief offices, for which men widely known would be candidates, he saw less trouble over this geographical cohesion, but he believed it would be impossible for the voters to make up a list of 15 delegates at large to the constitutional convention properly distributed throughout the state without some previous understanding. He looked upon it as a duty of the convention to remedy this situation in part by drawing up recommendations, leaving the voters to accept as much or as little as they choose.

CONFIDENT OF ARMY, GERMANS HOPE THAT STRATEGY WILL PUT THEM ON EVEN BASIS IN WATER AND AIR

Above, raising a German signal balloon; below, Kaiser Wilhelm Canal.

France is the leader of the world in aerial fighting and England holds mastery of the seas. Germany thinks her army invincible and trusts to strategy to help her out at sea and in combating the new demons of the air. By means of the new canal at Kiel the German fleet can manoeuvre so as to concentrate in either sea at will. This would enable the Germans to choose their own scene for naval action. The kaiser officially dedicated the Kaiser Wilhelm Canal June 24. It connects the North Sea with the Baltic through Kiel Bay from Brunsbutol to Kiel.

"BOUILLON KUB" NO LONGER ADVERTISED IN FRANCE; INNOCENT LOOKING POSTERS CONTAINED SOME VERY USEFUL INFORMATION

French soldiers marching past German spy sign (indicated by arrow).

Cable dispatches from Paris a few days ago told of a remarkable series of posters dotting the countryside of France. These posters, innocently advertising Bouillon Kub, a German soup preparation, were so cleverly printed by the German concern advertising the soup, that they acted as signals to German army officers, leading their troops through France. One of these "spy posters" is seen posted on the left of the building past which the French soldiers are marching toward the Alsatian frontier.

SCIENCE NOTES

Canada will soon have the distinction of having the largest dairy in the world which is now nearing completion at Head Lake, Headings, a suburb of Winnipeg. When completed it will contain 2,500 head of cattle. With 1,600 of these giving milk, the total yearly output of milk and cream should be 2,000,000 gallons.

As a result of his experience in a railroad wreck, Joseph H. Gartside, commander of a Grand Army Post in Philadelphia, has invented a system of detecting fractured rails which are the cause of so many railroad accidents. The inventor was a passenger on the train on which the veterans were returning from the national encampment held in Rochester, N. Y., on August 25, 1911. At Manchester, N. Y., that train was wrecked and 28 were killed and 63 injured. Mr. Gartside was not injured, but his wife was thrown against the arm of the seat and sustained injuries, at the time thought trifling, but today she is an invalid unable to walk.

Old leather material which finds its way into the waste pile is extremely valuable and returns to our homes in many other shapes. It is soaked in water to remove the dirt, all the nails and thumb are picked out, and the leather is reduced to a thick pulp, from which wallpapers, screens, etc., are made. The finer the original quality of leather the better it takes the bronze and old gold of the designs which make these hangings things of beauty. Bookbinders and framemakers also know full well the value of this pulp, and carriage builders use it in the construction of the leather seats of their vehicles.

Mr. Gartside found the broken rail that caused the wreck. Two-thirds of the fracture was black and one-third bright, showing that it had been fractured for a long time, and on this account it let go after the two engines and five cars of the same train had passed over it. His invention to detect these breaks in time to correct them consists of pasting a strip of paper or other fragile material in the web of the rail. If the fracture exists, the weight of the engine passing over it will extend the fracture and tear the paper, enabling the track-walker or inspector to detect it, which otherwise could not be seen, as after the engine passes it comes so close together that the fracture could not be seen.

EVANSVILLE READY TO WELCOME CROWDS

Rock County Fair. Will Be Big Attraction—Fine Exhibits Entered—Fast Horses to Compete.

(SPECIAL TO THE GAZETTE.)
Evansville, Aug. 18.—As George Gano, world's champion pacing stallion on a half-mile track, having turned a two lap mile in 2:02 and will attempt to better this record at the big Rock county fair Thursday, the management of the association have, at a considerable expense, secured a special train which will leave Beloit at 8:30 Thursday morning, coming over and Magnolia. This train will arrive shortly before ten o'clock, giving everyone an opportunity to see the baseball game between Oregon and Beloitville, and will leave Evansville at about 6:35 in the evening. As this is the only fair in southern Wisconsin at which Mr. Savage has consented to exhibit this horse, there is no doubt but that a large number of visitors from that direction to arrive back home at a reasonable hour. Thursday's attractions include the baseball game between the Oregon and Beloitville teams, which are regarded as two of the fastest in the amateur league, being second in the percentage standing. The Oregon outfit won two extra inning games, close scores last week and number on the roll Cusick and Kloser, a battery from the University of Wisconsin, Richards, the veteran first baseman, Dunn, Minch and Elliott, all players of recognized ability.

That the management is determined to have a clean fair was demonstrated Sunday afternoon, when two men were ejected from the grounds for bringing liquor. One of these was a Doyle, and said that he was from Milwaukee. A suit case full of supplies was found in his possession, which was promptly confiscated. Urgently requested to take his departure, which he did. A local man known as "Shorty" Anderson was also under the influence of intoxicants and refused to leave the grounds and was ordered to leave. A large amount of money found on his person was confiscated by the officers. The sooner it is impressed on such people that they are not wanted here the better it will be. It will save themselves and the management trouble if they remain away.

Rev. J. H. Baumeister, the superintendent of Evangelical Congregational Home and Hospital in Chicago, is traveling through the vicinity in the interest of said institution. He was with Rev. G. E.
